

AI in Education: The Dichotomy Between Innovation and Prohibition

Context

Publication

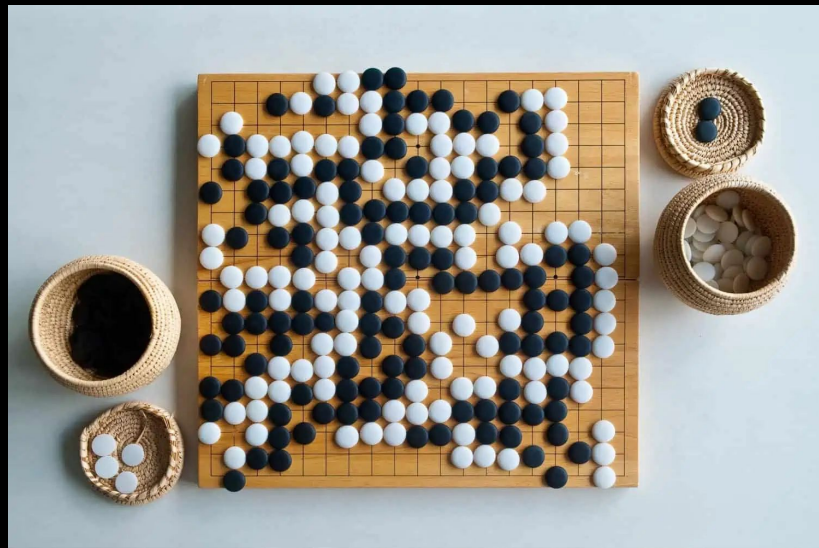

Your Brain on ChatGPT: Accumulation of Cognitive Debt when Using an AI Assistant for Essay Writing Task

- NYC and LA have enacted bans on AI usage in schools;
 - Generative AI moratorium in NYC for Pre-K through 8th grade
 - All non academic use-cases of AI are banned for Pre-K through 12th grade students
- MIT studies on cognitive debt and atrophy
- Anthropomorphism -> vast concerns for children & their AI usage

Why This Matters

- Parallel:
 - Google DeepMind's AlphaGo AI program;
 - "I felt something very strange. I lost to a program. And I didn't understand myself anymore."
 - Fan Hui, European Go champion
 - Human identity is deeply interwoven with competence
- The question is not whether AI will surpass us, but how we use it
- Applies to education — AI cannot replace or else all originality will cease to exist

Thank You!
